Have Mustard Seed Faith

- **Quality of Your Faith** - Jesus wants to know if you have the amount of faith it takes to move a mountain. We need to increase the quality, and quantity, of our faith. How much faith do you right NOW? We must build relationships with those around us that share the same faith.
- **Challenge Your Inner Faith** - Jesus challenged the disciples' faith to cast out demons. We are challenged daily with COVID-19. In our relationships, we need to muster all the faith we have to get closer to the very One that can aide us in moving the "mountain". Today, we challenge you to raise the level of your faith.

Questions to Ask Yourself Today?

- How do I build up my faith?
- How can I ever build my faith to be in relationship again? (I don't want to be hurt again.)
- How can I build close relationships?

Not Seeing is Believing

Quote from Rick Warren - "Faith is visualizing the future in the present—it means seeing the future in advance. People say, "Seeing is believing." God says the exact opposite: "Believing is seeing." Some things you'll never see unless you believe them first".

Tony Evans says, "Faith is acting like it is so, even when it is not so, in order that it might be so, simply because God said so."

But without that eye we are blind and can have no fellowship with God in those Sacred Truths which only faith can perceive." - Spurgeon
